

Namota

YOKOHAMA

**PRODUCT
MANUAL**

A close-up photograph of the front left corner of a bright green car. The focus is on the headlight, which features a distinctive dual-lens design with a chrome-like trim. The car's body panels are highly reflective, showing highlights from the lighting. The background is dark and out of focus.

ALWAYS ON YOUR ROAD

Pengenalan Brand

NAMOTA berasal dari Yokohama, Jepang, dengan Takeshi Tanaka sebagai founder dan ayahnya yang bekerja sebagai quality control di perusahaan otomotif. Sejak kecil mendapat pengaruh dari ayah, sehingga menumbuhkan minat yang kuat terhadap dunia otomotif. Bahkan sangat mengenal setiap bagian dari mobil, terutama menjunjung kualitas yang sangat tinggi. Seperti logo “N” pada NAMOTA sangat memperhatikan kualitas produk seperti produk Jepang lainnya. Setiap desain produk dibuat dengan sungguh-sungguh dan tidak biasa, menghubungkan otomotif dengan kehidupan sehari-hari, memungkinkan pengguna mendapatkan pengalaman yang menyenangkan dalam menggunakan. Pada tahun 2021 mulai masuk pada aksesoris kendaraan. Tahun 2022, NAMOTA didirikan.

Definisi Merek

Lambang “N” merupakan kombinasi dari sirkuit dan garis finish, melambangkan dari garis awal terus bergerak hingga garis finish, terus mengejar mutu tinggi terhadap kualitas produk. Lambang “N” adalah huruf awal dari kata “Never”, melambangkan pantang menyerah. Terinspirasi dari lingkaran utara Nordschleife di sirkuit Nürburgring, melambangkan pasang surut perjalanan hidup manusia, meski penuh dengan kesulitan dan ketidakpastian, tapi hidup tetap harus maju, menantang diri sendiri, memiliki tekad kuat, dan pantang menyerah. Meski hidup penuh dengan lika-liku, garis akhir merupakan garis awal, jangan pernah melupakan tekad awal, kami selalu menemani dan menjadi mitra terbaik untuk pengguna.

FILOSOFI PRODUK

Seperti logo “N” pada NAMOTA mempunyai semangat yang kuat terhadap kualitas. Setiap desain produk dibuat dengan sungguh-sungguh dan tidak biasa, menghubungkan otomotif dengan kehidupan sehari-hari, memungkinkan pengguna mendapatkan pengalaman yang menyenangkan dalam menggunakan.

VISI

Menghubungkan otomotif dengan kehidupan sehari-hari, dan memungkinkan pengguna untuk mendapatkan pengalaman kemudahan dalam kehidupan yang belum pernah dialami sebelumnya.

PRODUCT MANUAL

CAR DECORATION

- Handphone holder (mobil/motor)
- Pewangi mobil
- Storage
- Sandaran kepala, penyangga pinggang
- Penutup mobil
- Aksesoris kecil (gantungan, strip anti gores, dll.)

CAR APPLIANCES

- Vacuum cleaner
- Purifier/Car aroma diffuser
- Refrigerator
- Incubator
- HUD Head-up-display
- Streaming rear view mirror
- Audio
- Vehicle smart system
- Motorcycle Bluetooth headset

CAR TOOLS

- Inflator
- Jumper starter
- Car wash gun
- Vehicle safety hammer
- Rel rak bagasi

CAR CARE

- TPU PPF Painting Protection Film
- Pembersih Mobil
- Pemeliharaan, perawatan dan pembersihan

AUTO MODIFICATION PARTS

- Consuming parts (brake disks, wipe blades, spark plugs etc)
- Modification parts (motor & car)
- Decoration parts/Variasi

HANDPHONE HOLDER

HOLDERS

DASHBOARD PHONE MOUNT

NC-H01

1. The product is suitable for mobile phones:
4.0 - 6.0 inch mobile phones
2. Product features: matte surface texture, metallic paint luster, rich design sense. The curved rod streamline design does not block the field of vision and has strong applicability
3. Product selling point: Adopt viscose and suction cup design, double fixing and fitting method, stable and not falling

CAR AIR VENT PHONE HOLDER

NC-H02

1. The product is suitable for mobile phones:
4.5 - 7.0 inch mobile phones
2. Product features: matte surface texture, metallic paint luster, rich design sense. 360° omnidirectional rotation, fast switching between vertical and horizontal viewing angles
3. Product selling point: Stable twist-lock three-point snap design secures the phone to the air vents

MOTORCYCLE PHONE HOLDER

NM-H01

1. The product is suitable for mobile phones:
4.5 - 7.0 inch mobile phones
2. Product features: matte surface texture, metallic paint luster, rich design sense. The contact surface of the stand to the phone is completely covered with soft silicone, which increases friction and improves stability
3. Product selling point: Made of high-quality materials, can withstand extreme temperatures from -20 to 75°C, suitable for outdoor environments.

COMMON FLEXIBLE BRACKET, EASY TO INSTALL.

Make-up mirror at the bottom

CAR STORAGE BOX

NC-D001

Adjustable elastic support frame, suitable for different models such as sedan/hatchback/SUV/business vehicle;

The bottom is equipped with a makeup mirror, which can be used as a makeup mirror when folded for quick makeup in the car;

The storage box can be rotated up and down 120°, and the comfortable angle can be adjusted;

DIV simple assembly, folding can also be stored, the car storage is more tidy;

EQUIPPED WITH INLAID SILENT FAN

CAR AROMA DIFFUSER NC-A001

Equipped with inlaid silent fan, 3 to 4 time more efficient than traditional purifier.

UV germicidal lamp at the vent to effectively eliminate airborne bacteria.

Beautiful and elegant LED indicator light ring, with freshener box for you to infuse fragrance and purifying liquid you like.

Built-in standard lithium battery, working time up to 3.5 hours, and can be used while charging. Suits at home, office and automotive use.

CAR INFLATOR AIR PUMP

Intelligently preset tire pressure, stop when full.

Two power supply modes, wireless and wired switch freely.

Comes with a light for use in the dark.

Quickly and easily detect tire pressure.

30 minutes continuous working time at 35psi pressure.

JUMP STARTER

1. Scope of application: Suitable for petrol cars below 4.0L or diesel cars below 2.0L

2. Product features: Using high-rate lithium battery, 400A strong starting current, suitable for multiple cycles of charging and discharging, intelligent protection circuit design, safe and fast.

3. Product selling point: Emergency lighting LED strong light, high and low temperature resistance.

LACQUER BEAUTY

PREMIUM COATING SPRAY

NC-C01

1. Scope of application: suitable for all kinds of car paint
2. Product features: This product is specially developed for the rapid coating of car paint surface. It is used for coating products after beauty and car washing. After use, the car paint surface has strong water repellency, bright gloss of car paint, no ash on the surface, easy to clean, and has the effect of protecting car paint from oxidation.
3. Product selling point: Light film protection. Strong water repelling. Mirror gloss

LIQUID WAX CLEANER

NC-C04

1. Scope of application: suitable for all kinds of car paint
2. Product features: Refined from palm wax and silicone resin, this product has strong decontamination effect, effectively removes tar, bird droppings, shellac and other dirt and small scratches on the paint surface, restores the gloss of the car paint, and forms a transparent protective film, reduce the erosion of ultraviolet rays and acid rain.
3. Product selling point: Decontamination and waxing integrated. Transparent protective layer, Strong decontamination

LIGHT DUTY POLISHING COMPOUND

NC-C05

1. Scope of application: suitable for all kinds of car paint
2. Product features: This product is produced with high-tech and high-quality raw materials. It integrates decontamination, polishing and maintenance. It is easy to use and can quickly remove body dirt. It has the functions of water-repelling, anti-static and anti-aging, which can prolong the life of car paint.
3. Product selling point: Quick glazing. Effective decontamination. Polymer repair. Effective water removal

CLEANING AND MAINTENANCE

BUG STAIN REMOVER

NC-C02

1. Scope of application: suitable for surfaces such as car paint, glass, wheels and plastics
2. Product features: This product can effectively penetrate into the surface of car paint, windshield, wheel hub, car logo and other surfaces, and quickly remove various stubborn stains such as shellac, bird droppings, gum, oil film and oxides. It adopts mild formula, no irritating odor, does not hurt hands, does not hurt car paint, does not leave traces, is safe, fast, and easy to use.
3. Product selling point: Decomposition elimination. Gentle formula. Wide applicability

PREMIUM WHEEL CLEANER

NC-C03

1. Scope of application: suitable for car paint, wheels and baffles, etc.
2. Product features: This product is rich in iron powder and strong dissolving molecules can completely penetrate, decompose and remove iron powder, oxide layer, brake powder and other substances on the paint surface and wheel hub. Gently spray, the iron powder dissolves quickly and turns into a purple liquid. Rinse with clean water. There will be a special smell when using the product, which is normal.
3. Product selling point: Effective penetration. Environmentally friendly formula. Wide applicability

CONTACT CLEANER

NC-C14

1. Scope of application: car beauty, home decoration, daily office environment, etc.
2. Product features: This product is suitable for car body, billboard, glass, marble, metal, most rubber, plastic, painted surfaces, etc. It can effectively remove stickers, tar, asphalt, gum, insect stains, and will not corrode the cleaned objects. Widely used in car beauty, hardware stationery, home decoration, daily office, cleaning and cleaning industries.
3. Product selling point: Effective glue removal. Dual-use car and home. Gentle and harmless

TAR STAIN REMOVER

NC-C11

1. Scope of application: suitable for car paint, wheels and baffles, etc., car and home dual use
2. Product features: The product can quickly and effectively remove the asphalt and various oil stains on the surface of the car, and has the functions of film forming and glazing, ensuring the gloss of the car surface without leaving scars, and making the car look brand new.
3. Product selling point: Strong penetration. Mild decontamination factor. Dual-use car and home. Film protection

WIPER FLUID

NC-C08

1. Scope of application: car windshields, rearview mirrors and doors and windows, etc.
2. Product features: The product is a water-based general cleaning agent, which can quickly decompose various oil films, shellac, tree sticks, bird droppings and other dirt. Thoroughly clean the glass surface, keep the glass transparent and bright for a long time, and make the vision wider. After cleaning, it does not leave water marks, is not easy to stain, does not damage rubber parts such as wiper blades and glass edge strips, and does not damage the car paint. Dedicated to car windshields, rearview mirrors and doors and windows.
3. Product selling point: High concentration. The smell is fragrant. Efficient cleaning

GLASS WATER REPELLENT

NC-C13

1. Scope of application: suitable for car windshields, windows, rearview mirrors, etc.
2. Product features: This product is a water repellent specially used for automobile glass and rearview mirror, which is convenient and quick to use. A waterproof film can be formed on the glass, which has a good water-repelling effect. It will not form a rain screen to block the line of sight in rainy days, and the vision is wide and clear, ensuring driving safety. The product does not damage rubber parts and painted surfaces.
3. Product selling point: Strong water repellency. Effective protection. Clear vision

TIRE SHINE SPRAY

NC-C06

1. Scope of application: tires, bumpers, rubber edges, etc.
2. Product features: This product is a tire care product that integrates cleaning, polishing and maintenance functions. The fine cleaning foam can completely decompose the oil stains and dirt on the tires, restore the black and glossy tires, and delay the aging, cracking and fading of the tires.
3. Product selling point: Three-in-one cleaning, glazing and maintenance. organic protective layer. Durable protection. No water washing, just one spray

ENGINE CLEANER

NC-C21

1. Scope of application: suitable for car engine exterior, air compressor exterior, etc.
2. Product features: This product can remove the greasy dirt on the surface of the engine and reduce the hidden danger of car spontaneous combustion caused by circuit aging and oil leakage. Improve the heat dissipation rate of the engine, enhance the brightness of the engine surface, and prevent aging.
3. Product selling point: cleaning/glazing/maintenance triple. Penetration and decomposition. Delay aging

MULTI-PURPOSE FOAM CLEANER

NC-C09

1. Scope of application: automotive interiors, household items, etc.
2. Product features: The product has efficient penetration and decontamination functions, and the rich and fine cleaning foam absorbs, wraps and transfers dirt to achieve deep cleaning effect. Widely used in car seats, dashboards, ceilings, etc., as well as home fabrics, tables and chairs, metal utensils, etc.
3. Product selling point: Deep cleaning. Strong decontamination. Dual-use car and home. No washing, large capacity

INTERIOR DETAILER CLEANER

NC-C12

1. Scope of application: suitable for car dashboards, bumpers and leather seats, etc.
2. Product features: The product is rich in macromolecular active factor and glossy wax component, which has stronger detergency, higher brightness and longer lasting glazing. It is widely used in automobile dashboards, bumpers, leather seats, tires and other rubber and plastic products. It has the functions of glazing and protection, as well as anti-aging and anti-static effects.
3. Product selling point: Powerful decontamination. The glazing is durable. Deep nourishment, Anti-aging and anti-static

AIR RE-FRESHER

NC-C10 (Ocean, lemon, Osmanthus)

1. Scope of application: air purification of indoor environments such as automotive air conditioners, newly renovated rooms, and office spaces
2. Product features: The product contains antibacterial and deodorizing ingredients, which can effectively decompose odor sources and deodorize quickly; during use, it can effectively remove Escherichia coli and Staphylococcus aureus, and at the same time emit a pleasant aroma. The sterilization rate was 99.99%, and the test strains were Escherichia coli and Staphylococcus aureus.
3. Product selling point: Decomposition sterilization and deodorization. Automatic atomization, Dual-use car and home. Fresh air

SYSTEM MAINTENANCE

CONTACT CLEANER

NC-C14

1. Scope of application: suitable for cars, factories, homes, offices, etc.
2. Product features: The product has multiple functions such as loosening rust, rust prevention, lubrication, dehumidification, cleaning and maintenance. It can penetrate strongly, effectively loosen rusted dead parts, and can form a protective film on the surface of objects to prevent metal parts from oxidizing and rusting. At the same time, it has the function of lubricating, reducing friction, reducing wear, prolonging the service life of parts, and keeping the machine in good working condition.
3. Product selling point: Cleaning and rust removal. Lubrication and noise reduction. Durable anti-rust

PREMIUM SILICON SPRAY

NC-C16

1. Scope of application: suitable for cars, factories, homes, offices, etc.
2. Product features: The product has good lubricating function and the function of protecting rubber parts. It can lubricate the mud grooves or slides of electric windows to eliminate noise; maintain the softness and elasticity of rubber parts, increase brightness, prevent cracking, and prolong service life; prevent rubber strips from sticking and preventing freezing.
3. Product selling point: Lubrication and silencer. Soften the rubber strip. Prevent aging

AC EVAPORATOR CLEANER

NC-C22

1. Scope of application: suitable for automotive air conditioners, etc.
2. Product features: This product can penetrate deep into the interior of the air conditioner to clean the dust, oil, insects and other dirt on the fans and switches in the air conditioner, and at the same time emit a pleasant fragrance. Using strong expanding foam, it is a professional cleaning agent without dismantling the interior of the air conditioner, which is convenient and quick.
3. Product selling point: Deep cleaning, lasting fresh, Dual-use car and home

ANTI-RAT

NC-C17

1. Scope of application: suitable for automobile engine room, household, warehouse, etc.
2. Product features: Using the keen sense of smell and taste of rodents such as rodents, a variety of natural plant active ingredients are extracted according to the living environment of mice. When contacted, they feel bored and uncomfortable, and they can't stand it and escape.
3. Product selling point: Safety and environmental protection. Dual-use car and home. Long-lasting rat repellent

CARB & INJECTOR CLEANER

NC-C15

1. Scope of application: suitable for automotive carburetor, choke, various controllers, etc.
2. Product features: he tar, grease, deposited lead, dust and other substances produced in various parts of the car carburetor, choke valve and various controllers, this product adopts the method of high-speed washing with strong solutes, which can remove these dirt substances and achieve the maintenance of the car.

Product selling point: Remove carbon deposits and remove sludge. Penetration and decomposition. Gentle formula

THROTTLE CLEANER

NC-C20

1. Scope of application: suitable for automobile throttle, carburetor, various controllers, etc.
2. Product features: This product can clean and lubricate the jelly, carbon deposits, paint films and other deposits of the throttle valve, and solve the problems of the car such as idling shaking, weak acceleration, noise and vibration, and increased fuel consumption. The product has no damage to the original throttle valve coating, oxygen sensor, etc.
3. Product selling point: Clean and lubricate. Penetration and decontamination. Fast and efficient

BRAKE AND PARTS CLEANER

NC-C18

1. Scope of application: suitable for automotive brake system components
2. Product features: The product adopts a chlorine-free formula, and the brake system components are professionally cleaned, which can quickly clean the metal chips, dust and grease and other dirt on the brake disc, brake drum, brake pad and other parts, eliminate brake noise, and maintain and improve the performance of the brake system.
3. Product selling point: Professional cleaning, Environmentally friendly formula, Denoising and efficiency

COMBUSTION CHAMBER CLEANER

NC-C19

1. Scope of application: suitable for automobile engine combustion chamber.
2. Product features: The product can quickly remove sludge and carbon deposits in the combustion chamber, piston top and other parts, restore engine performance, and solve engine jitter, idling instability, cold start difficulties, high fuel consumption, weak acceleration, and high exhaust emission indicators caused by carbon deposits. It can prevent and alleviate the burning oil, improve the air-fuel ratio, restore the engine power performance, and prolong the service life of the engine. The product has no damage to parts, oil seals, oxygen sensors, three-way catalytic converters, etc.
3. Product selling point: Remove carbon deposits. Recovery performance. Relieves burning engine oil

MOTORCYCLE CONSUMABLES

MOTORCYCLE THROTTLE GRIP

NM-T01

Application: Replacement of motorcycle throttle grips

Product features: Using new Thermoplastic Elastomer raw materials + CNC machined aluminum parts, soft to the touch, and the raised patterns on the surface are wear-resistant and non-slip.

Product selling point: non-toxic and non-polluting, resistant to high and low temperature and corrosion, long service life, compared with the traditional 12CM handle, the full size of the Namota product is longer, the NM-T01 reaches 15.5CM, and the grip surface is larger.

MOTORCYCLE THROTTLE GRIP

NM-T02

Application: Replacement of motorcycle throttle grips

Product features: Using new Thermoplastic Elastomer raw materials + CNC machined aluminum parts, soft to the touch, and the raised patterns on the surface are wear-resistant and non-slip.

Product selling point: non-toxic and non-polluting, resistant to high and low temperature and corrosion, long service life, compared with the traditional 12CM handle, the full size of the Namota product is longer, the NM-T02 reaches 15CM, and the grip surface is larger.

MOTORCYCLE BRAKE PADS

NM-B01

NM-B02

NM-B03

NM-B04

NM-B05

NM-B06

Application: motorcycle brake pad replacement

Product features: Add ceramics, aramid fiber (body armor material), etc. Ultra-high strength, high modulus, high temperature resistance, acid and alkali resistance, light weight and other excellent properties, its strength is 5 to 6 times that of steel wire, and the modulus is steel wire or

It is 2 to 3 times that of glass fiber, and its toughness is 2 times that of steel wire.

Product selling point: long service life, no noise, short braking distance, no damage to the disc.

MOTORCYCLE MODIFIED PIECES

MOTORCYCLE FORK CUP

NM-B08

Application range: motorcycle front fork decoration and anti-fall

Product features: 6063 aluminum alloy CNC machining, good corrosion resistance, high toughness and no deformation.

Product selling point: strong versatility, suitable for more than 90% of models, excellent anti-skid effect of concave-convex tooth shape, can effectively reduce the damage to related parts after the motorcycle falls.

MOTORCYCLE ANTI-FALL STICK

NM-B07

Application range: motorcycle body decoration and anti-fall

Product features: magnesium-silicon-aluminum alloy die-casting, good corrosion resistance, high toughness and no deformation.

Product selling point: strong versatility, suitable for more than 90% of the models, the length of 13CM is longer than the size of the existing anti-drop bars on the market, which can more effectively reduce the damage to related components after the motorcycle falls.

MOTORCYCLE MODIFIED BRAKE HANDLE

NM-B09

Application: motorcycle brake handle replacement

Product features: 6063 aluminum alloy CNC machining, good corrosion resistance High strength, toughness and no deformation.

Product selling point: strong versatility, suitable for more than 80% of models, bumpy The tooth shape has excellent anti-slip effect.

NAMOTA TPU PPF

HEAT SELF-HEALING PPF SERIES

The fifth-generation hydrogen-bonded patented coating has undergone two surface passivation treatments, and has super anti-permeability, scratch repair memory function: prevent Water stains, extinction, and extreme anti-fouling. Heat self healing, Glue is from USA Ashland, Silicon PET Protective Film

Product Construction

NAMOTA TPU PPF series offers breakthrough technology for paint protection applications utilizing an advanced, self-healing, solvent resistant top-coat formulation allowing for easy installation as well as increased longevity. The product is available in 60" widths. NAMOTA PPF product outdoor Durability could be 5-7 years.

SCRATCH REPAIRMENT		HEAT REPAIRABLE		(0.1MM) COPPER BRUSH & DRYING GUN	
ACID AND ALKALI RESISTANCE		NO VISIBLE COATING DEFECTS		EXPERIMENTAL METHOD

CAR FRONT SUNSHADE

CAR FRONT SUNSHADE

NC-S11 Sliver

1. Made of polyester fabric and metal aluminum rod, the surface of polyester fabric is reflective aluminum film, effective heat insulation and reduce UV radiation.
2. Retractable design, easy to pull out and fold, very convenient to shade the sun in a few seconds.
3. equipped with 4 large suction cups, can be firmly fixed on the windshield, very easy to install.
4. Accessible design at both ends of the product, can be freely cut, so that the sunshade and windshield perfectly match.

SUN SHADE UMBRELLA

NC-S12 Sliver

1. No light leakage, no light transmission, effective heat insulation, reduce UV radiation.
2. Strong fiberglass umbrella bone is not easy to conduct heat, more wear-resistant.
3. easy to install, 1 second to open the umbrella that is used.
4. leather umbrella cover storage, compact and can be placed anywhere.

CAR COVER

CAR COVER

NC-S01 Sliver

1. 190T waterproof silver coated cloth material made of the bottom elastic band tightening, a windproof band in the middle to prevent the car cover from being blown away by high winds.
2. Lightweight and small in size, easy to install and store.
3. car coat with anti-UV, anti-aging and other functions, better protect the car from the sun, wind, dust and other natural factors, so that the car always keep in good condition.
4. Equipped with portable storage, it does not take up much space.

Functions: waterproof, UV protection, sun protection, dust release, breathability, protection of car paint, protection of scratches, etc.

Selling point: humanized design, single side opening door.

CAR NECKPILLOW

CAR NECK PILLOW

NC-P01

1. Suitable for 99% of the models
2. Slow rebound memory foam
3. Durable and wear-resistant
4. Ergonomic design

CAR LUMBAR PILLOW

NC-P02

1. Suitable for 99% of the models
2. Slow rebound memory foam
3. Durable and wear-resistant
4. Ergonomic design

CAR WIPER

UNIVERSAL BONE WIPER BLADE SERIES

NC-W16, NC-W18, NC-W22, NC-W24, NC-W26

1. **Stainless steel lining:** It is made of SUS304 stainless steel, which provides uniform pressure for the rubber strip, which is not easy to deform. The intelligent curve elastic design has a better fit with different glass curves, reduces the occurrence of water marks, and can be used for a longer time.
2. **Rubber strip:** The new production process adopts the design principle of light and heavy pressure as a whole. The surface is treated with Teflon infiltration, which has the properties of wear resistance, fatigue resistance and anti-aging, and the scraping is cleaner and more durable.
3. **Rivets:** Different from the riveting structure of other products on the market, stainless steel rivets are specially used for riveting, which is both beautiful and firm.
4. **Connector:** Pure POM original rice production, unique structure design, quick installation of wiper hook arm.
5. **Product surface treatment:** electrophoresis + liquid spray paint matt process, the surface is treated with corrosion resistance, the paint layer is uniform, there is no glare, the gloss is less than 40%, and the thickness of the paint is 40um-70um on one side.

MULTIFUNCTIONAL BONELESS WIPER BLADE SERIES

NC-W16F, NC-W18F, NC-W22F, NC-W24F, NC-W26F

1. Shrapnel: Made of Taiwan high carbon steel shrapnel, the height change will not exceed 2mm after fatigue resistance of 2 million times, not easy to deform, intelligent curve elastic design and different glass curves have better fit, reduce water marks, use longer.
2. Structure: The double shrapnel is formed and processed by the secondary tempering process to improve the resilience of the shrapnel; the bridge-type welding process at both ends makes the pressure distribution of the shrapnel more uniform, ensuring a smaller range of curve deviation, no jitter, and quietness; It can solve the difficulty that the single-shrapnel wiper cannot replace the rubber strip, and can quickly and easily replace the wiper rubber strip, which is convenient for after-sales and improves customer satisfaction.
3. Rubber strip: The new production process adopts the design principle of light and heavy pressure as a whole. The surface is treated with Teflon infiltration, which has the properties of wear resistance, fatigue resistance and anti-aging, and the scraping is cleaner and more durable.
4. Connector: Unique special connector design, not broken, easy to install, firm and safe. It is more beautiful and fashionable to match the mid-to-high-end cars.
5. Sheath: TPR material, integrated sheath, unique pressurized aerodynamic design, maximum turning wind force into pressure, even at high speed of 130km/h, the wiper can run smoothly without shaking, beautiful and elegant, Does not fade or deform.

CAR REAR WIPER BLADE

MULTIFUNCTIONAL REAR WIPER BLADE SERIES

NC-W11R, NC-W13R, NC-W14R

1. **Stainless steel lining:** It is made of SUS304 stainless steel, which provides uniform pressure for the rubber strip, which is not easy to deform. The intelligent curve elastic design has a better fit with different glass curves, reduces the occurrence of water marks, and can be used for a longer time.
2. **Rubber strip:** The new production process adopts the design principle of light and heavy pressure as a whole. The surface is treated with Teflon infiltration, which has the properties of wear resistance, fatigue resistance and anti-aging, and the scraping is cleaner and more durable.
3. **Rivets:** Different from the riveting structure of other products on the market, stainless steel rivets are specially used for riveting, which is both beautiful and firm. .
4. **Connector:** Pure POM original rice production, unique structure design, quick installation of wiper hook arm.
5. **Product surface treatment:** electrophoresis + liquid spray paint matt process, the surface is treated with corrosion resistance, the paint layer is uniform, there is no glare, the gloss is less than 40%, and the thickness of the paint is 40um-70um on one side.
